Committee of Transportation & Infrastructure

Dear Chair DeFazio and Ranking Member Graves:

I am requesting funding for I-26 and I-526 Intersection Improvement project in the surface transportation reauthorization legislation.

The project sponsor for this project is Richard Turner and the project is located at the I-26 & I-526 Interchange in North Charleston, SC 29445.

The funding is designated for intersection improvements at a key interchange locally.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits: address and improve the traffic operations due to a high number of vehicles moving between I-26 and I-526, coupled with closely spaced interchanges with ramps that have steep grades and tight curves, and limited distances for vehicles to merge onto and off of I-526.

I certify that neither I nor my immediate family has any financial interest in this project.

All the best,
