2165 Rayburn House Office Building
Washington, DC 20515

The Honorable Sam Graves
Ranking Member
2164 Rayburn House Office Building
Committee of Transportation & Infrastructure
Washington, DC 20515

Dear Chair DeFazio and Ranking Member Graves:

I am requesting funding for the City of Charleston: King Street Flood Pump Station Project in the WRDA 22 legislation.

The project sponsor for this project is the City of Charleston located at 80 Broad Street Charleston, South Carolina 29401.

The funding is designated to allow construction of a stormwater storage feature, to include a new pump station, to increase flow out of intersection of King and Huger Streets.

The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits: address and improve the traffic operations due to a high volume of flood related impacts prompting the necessity for pumps and significant additional mitigation measures. The pumps have tremendous benefit to the local community both short and long term.

I certify that neither I nor my immediate family has any financial interest in this project.

All the best,

Nancy Mace
Member of Congress
